

VDP Week 1, Session 2: Woodshop Wonders - A Beginner's Guide

In this woodworking adventure, students will get hands-on experience learning the basics of woodworking and shop safety. Each day, we'll explore different tools and techniques, helping students build both confidence and craftsmanship. From sanding to sawing, we'll cover it all! By the end of the week, participants will take home a small project they've created with their own hands. Whether you're brand new to woodworking or just love making things, this course offers a fun and creative way to learn valuable skills. Safety is a top priority, so you'll also get the lowdown on how to work smart and stay safe in the shop. Let's build something great together!
